In the verbal section you will have 75 minutes to answer 41 questions. 11 of these questions are experimental and would not be counted towards your score. You will be asked to answer certain questions and experimental questions are placed at the end.

This section includes three types of questions: sentence correction, critical reading, and reading comprehension. Sentence correction questions test your ability to spot grammatical mistakes. The Critical Reading questions test your ability to understand and analyze arguments. And the Reading Comprehension tests your ability to find information in a long passage.

One can calculate the overall average for a study question but the overall average for a section question is very subjective and arbitrary. Please get answer choice in correct direction if no further than other four answer choices.

The best approach:

For sentence correction: - No quantity or grammar problems or rule - Eliminate answer choices containing that - Choose the remaining answers, choose the best answer

For Critical Reading: - Break the argument in conclusion, premise and assumptions - state the answer - Eliminate the answer choices that do not match with your answer.

For Reading Comprehension: - Read the passage quickly to get the main idea, read and analyze the questions - Read the answer in the following order: questions in the order they appear - For the answer choices that do not match your answer

Best of luck
